

**WHAT IS FAST, SIMPLE  
AND COST EFFECTIVE ?**

# SikaScreed®-40

## OUR NEW READY-TO-USE SCREED MORTAR!

Unlike traditional screeds, which require large quantities of materials (cement, sand, water, admixtures, etc.) and can be subject to logistical delays (transportation and handling of cement, sand, etc.), SikaScreed®-40 presents a solution for today's needs. This ready-to-use screed mortar requires only water for a quick return to service (24 hours) and an aesthetic finish. It is ideal for interior applications in new construction or renovation. Fast, simple, and cost effective!

### ADVANTAGES

- Modified with the latest generation of polymers
- Application from 3/8" (10 mm) to 6" (150 mm)
- No waiting - 24-hour turnaround
- Compatible with most pre-existing substrates

### WHERE TO USE

- Floating or bonded screeds on new or old concrete slabs
- Creation of slope shapes (e.g., coves, gutters, Italian showers, etc.)
- As a slurry for adhesion under screed

### THE SIKA ADVANTAGE

At Sika, we offer more than just mortars...

Ask Sika's experts how they can provide a full scope of protection and repair solutions.

*Our most current General Sales Conditions shall apply.
