REGARDING RAL COLOURS

Sika's colour production system offers the ultimate flexibility in colour selection: an unlimited choice of colours offered through the classic RAL fan.

Custom colours available with adequate lead time and minimum batch quantities.

- All colours shown are as accurate as printing methods and computer display screens permit.
- Results may differ due to variances in application technique and gloss levels may vary depending upon product used.
- Final colour selections should be made based upon actual samples.
- Please consult a Sika Technical Sales Representative for detailed advice.
