

# Sika® Stabilizer-180 RCA

## POWDERED ADMIXTURE FOR RETURNED CONCRETE

Address the challenge of concrete returned to the yard by using Sika® Stabilizer-180 RCA, a fast-acting powdered admixture used to alter the properties of plastic concrete resulting in a very low strength granular material that is easy to process.

### PRODUCT HIGHLIGHTS

- **Easy** pre-packaged doses in 454 g (1 lb) water-soluble bags
- **Robust** – effective in all cement types and mix designs
- **Fast** acting

### PRODUCER BENEFITS

- **Save time and money** by eliminating time intensive and expensive returned concrete processing
- **Increase efficiency** by expediting truck turnaround (ready for next load in minutes)
- Reduce energy intensive crushing and processing to **reduce overall carbon footprint**
- **Divert waste** from landfill
- Create a **recycled product** that can be re-used as aggregate or re-sold as road base/back fill
