15.14 L (4 US gal)

AVAILABLE COLOURS: White & Coloured

TO LEARN MORE

Our most current General Sales Conditions shall apply.

Please consult the most current local Product Data Sheet prior to any use.

SikaWall®-485 MP is a traditional inorganic, potassium silicate-based mineral paint containing a water repellent, inorganic pigments and mineral fillers. It adheres by creating a chemical bond with the mineral substrate, offering a great durability, high water vapour permeability and superior water repellency properties.

ADVANTAGES

- Ready-to-use, for exterior and interior applications
- Does not flake, highly durable
- Extremely vapour-permeable, allows the system to breathe
- Non-flammable - Does not release toxic gases or smoke in case of fire

WHERE TO USE

- Application on absorbent surfaces such as concrete, brick, most stones, historic masonry, stucco, mortars, lime plasters, CMU, GFRC, cement boards and plasters, etc.
