| Notes to physician  | : | Treat symptomatically.  |

## **SECTION 5. FIRE-FIGHTING MEASURES**

| Suitable extinguishing media | : | Use extinguishing measures that are appropriate to local cir-<br>cumstances and the surrounding environment. |
|------------------------------|---|--|
| Further information          | : | Collect contaminated fire extinguishing water separately. This must not be discharged into drains.           |
|                              |   |  |

### Revision Date 10/07/2022

|  |   | Fire residues and contaminated fire extinguishing water must be disposed of in accordance with local regulations. |
|--|---|---|
| Special protective equipment for fire-fighters | : | In the event of fire, wear self-contained breathing apparatus.  |

### SECTION 6. ACCIDENTAL RELEASE MEASURES

| Personal precautions, protec- :<br>tive equipment and emer-<br>gency procedures | Use personal protective equipment.<br>Deny access to unprotected persons.   |
|---|---|
| Environmental precautions :   | Do not flush into surface water or sanitary sewer system.<br>If the product contaminates rivers and lakes or drains inform<br>respective authorities.<br>Local authorities should be advised if significant spillages<br>cannot be contained. |
| Methods and materials for : containment and cleaning up                         | Soak up with inert absorbent material (e.g. sand, silica gel,<br>acid binder, universal binder, sawdust).<br>Keep in suitable, closed containers for disposal.  |

#### SECTION 7. HANDLING AND STORAGE

| Advice on protection against fire and explosion | : | Normal measures for preventive fire protection.  |
|---|---|--|
| Advice on safe handling                         | : | <ul> <li>Avoid exceeding the given occupational exposure limits (see section 8).</li> <li>Do not get in eyes, on skin, or on clothing.</li> <li>For personal protection see section 8.</li> <li>Smoking, eating and drinking should be prohibited in the application area.</li> <li>Follow standard hygiene measures when handling chemical products.</li> </ul> |
| Conditions for safe storage                     | : | Store in original container.<br>Keep in a well-ventilated place.<br>Containers which are opened must be carefully resealed and<br>kept upright to prevent leakage.<br>Observe label precautions.<br>Store in accordance with local regulations.  |

Engineering measures

: Use of adequate ventilation should be sufficient to control worker exposure to airborne contaminants. If the use of this product generates dust, fumes, gas, vapor or mist, use process enclosures, local exhaust ventilation or other engineering controls to keep worker exposure below any recommended or statutory limits.

| Personal protective equipr | nent  | :   |
|----------------------------|---|---|
| Respiratory protection :   | Use a properly fitted NIOSH approved air-purifying or air-fed respirator complying with an approved standard if a risk as-<br>sessment indicates this is necessary. |   |
|                            |   | The filter class for the respirator must be suitable for the max-<br>imum expected contaminant concentration<br>(gas/vapor/aerosol/particulates) that may arise when han-<br>dling the product. If this concentration is exceeded, self-<br>contained breathing apparatus must be used. |
| Hand protection            | :   | Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary.   |
| Eye protection             | :   | Safety eyewear complying with an approved standard should be used when a risk assessment indicates this is necessary.   |
| Skin and body protection   | :   | Choose body protection in relation to its type, to the concen-<br>tration and amount of dangerous substances, and to the spe-<br>cific work-place.  |
| Hygiene measures           | :   | Avoid contact with skin, eyes and clothing.<br>Wash hands before breaks and immediately after handling<br>the product.<br>Remove contaminated clothing and protective equipment<br>before entering eating areas.  |
