

FIXATION YOU CAN TRUST

Sika AnchorFix®-2020 is a two-component epoxy-acrylate resin-based anchoring adhesive, free from solvents and styrene. It ensures a high initial strength, even at temperatures as low as -10 °C (14 °F), for medium to heavy loads in various construction materials

ADVANTAGES

- Rapid curing, even at temperatures as low as -10 °C (14 °F)
- Suitable for high loads
- Applicable to both cracked and non-cracked concrete

USES

- Anchoring of rebar and threaded rods
- Structural and non-structural applications
- Effective even under challenging conditions
