NEW PACKAGING FOR MASONRY PRODUCTS IN 30 KG FORMAT

MARCH 8TH, 2023

Dear Distributor,
Dear Contractor,

KING Masonry Mortars and Grouts are getting a new look!

We would like to inform you that all our packaging in 30 kg format will be from now on yellow with the SIKA logo integrated with the KING one.

We have already started using the new packaging for some products. As the inventory of previous bags will be used up, all of our mortars and grouts in 30 kg format will use our new packaging.

To facilitate the identification of the different products, we have carefully preserved the original specific colour corresponding to each of the products on our new packaging. In the following example, the KING 1-1-6 Grey is always represented by the orange colour on the front and sides of the bag.

Do not hesitate to contact your Sika Technical Sales Representative for further information.
