

SikaTile®-815 Secure Grout (CA)

HIGH PERFORMANCE, RAPID-SETTING, POLYMER-MODIFIED GROUT

SikaTile®-815 Secure Grout (CA) is a premium preblended rapid-setting polymer-modified that only requires the addition of water for mixing. For joints from 1.5 mm (1/16 in) to 25 mm (1 in).

SikaTile®-815 Secure Grout (CA) provides colour consistent and no efflorescence, strong and durable grout joints and features a creamier consistency than most grouts, making it easier to spread.

WHERE TO USE

- Indoor and outdoor applications
- For floors and walls (shopping centres, airport terminals)
- Where heated floors are present (water and electric systems) interior only
- Wet areas, batch surrounds and showers

TO LEARN MORE

ADVANTAGES

- Rapid-curing and high initial compression strength allows foot traffic on the grouted area as soon as 3 hours
- Advanced aggregate technology provides a smooth consistency and superior colour uniformity
- Will not promote mold or mildew
