

PRODUCT DATA SHEET

Sable Marco® Pro Seeding and Lawn Soil Mix

Soil mix for seeding, patch repair and installing new lawns

DESCRIPTION

Sable Marco® Pro Seeding and Lawn Soil Mix is a high-quality natural soil mix specially formulated for starting grass seed, repairing bare patches and installing new lawns. Its enriched, natural composition improves seed-to-soil contact, promotes uniform germination and supports healthy lawn development.

USES

Sable Marco® Pro Seeding and Lawn Soil Mix is suitable for seeding new lawns, top dressing existing turf, repairing bare or damaged patches and installing sod.

FEATURES

- Enriched with compost to support seedling development
- Optimized moisture retention for consistent germination
- Promotes quick root establishment for resilient, healthy turf
- Made with natural, organic materials

PRODUCT INFORMATION

Composition	This product is a blend of dry & wet peat moss, black soil, compost (municipal biosolids) and dolomite.	
	Guaranteed minimal analysis (%):	
	Total Nitrogen (N)	1.29
	Available Phosphate (P ₂ O ₅)	0.007
	Soluble Potash (K ₂ O)	0.007
	Calcium (Ca)	0.167
	Magnesium (Mg)	0.025
	Sulfur (S)	0.001
	Iron (Fe)	0.021
	Manganese (Mn)	0.001
	Organic Matter	35
	Maximum Moisture	45

Packaging	10 kg (22 lb) / 27 L (0.95 ft ³) bag
Shelf life	3 years
Storage conditions	Store in a cool, dry area protected from the elements. Keep bags sealed to prevent moisture exposure.

BASIS OF PRODUCT DATA

All technical data stated in this Data Sheet are based on laboratory tests. Actual measured data may vary due to circumstances beyond our control.

ECOLOGY, HEALTH AND SAFETY

User must read the most recent corresponding Safety Data Sheets (SDS) before using any products. The SDS provides information and advice on the safe handling, storage and disposal of chemical products and contains physical, ecological, toxicological and other safety-related data.

Caution: Due to the presence of biosolids compost, it is recommended that you wear gloves when using this product and wash hands well after use.

First aid: If on skin: wash with plenty of water. Take off contaminated clothing and wash it before reuse. If in eyes: rinse continuously with water for several minutes. Remove contact lenses, if present and easy to do. Seek medical attention if irritation occurs or persists. Read label before using. Keep out of reach of children and animals.

APPLICATION INSTRUCTIONS

Seeding or installing a new lawn: Clear the area of debris, dead grass, and weeds. Spread a 10 mm ($\frac{3}{8}$ in) layer of Sable Marco® Pro Seeding and Lawn Soil Mix over the prepared soil. Apply grass seed according to the seed manufacturer's instructions, then cover lightly with another 10 mm ($\frac{3}{8}$ in) layer of Sable Marco® Pro Seeding and Lawn Soil Mix to protect the seed and improve contact. Keep soil consistently moist until germination is complete. Fertilize as needed based on grass type and season.

Top dressing: Spread a thin layer up to 3 mm ($\frac{1}{8}$ in) of Sable Marco® Pro Seeding and Lawn Soil Mix evenly over existing turf. Rake lightly to work the mix into the lawn surface. Water thoroughly. Repeat as needed during the season to improve soil quality and lawn density.

Lawn repair: Remove damaged turf, weeds, and debris. Loosen the surface soil and spread a 15 mm ($\frac{1}{2}$ in) layer of Sable Marco® Pro Seeding and Lawn Soil Mix over the area. Reseed and water regularly, especially during early mornings and evenings, until the grass is established.

Sod installation: Remove weeds and loosen the topsoil. Spread a 10 mm ($\frac{3}{8}$ in) layer of Sable Marco® Pro Seeding and Lawn Soil Mix over the area and lightly mix into the surface soil. Lay sod immediately and press it down for full contact. Water deeply and consistently until roots are established.

LOCAL RESTRICTIONS

Note that as a result of specific local regulations the declared data and recommended uses for this product may vary from country to country. Consult the local Product Data Sheet for exact product data and uses.

LEGAL NOTES

The information, and, in particular, the recommendations relating to the application and end-use of Sika products, are given in good faith based on Sika's current knowledge and experience of the products when properly stored, handled and applied under normal conditions in accordance with Sika's recommendations. In practice, the differences in materials, substrates and actual site conditions are such that no warranty in respect of merchantability or of fitness for a particular purpose, nor any liability arising out of any legal relationship whatsoever, can be inferred either from this information, or from any written recommendations, or from any other advice offered. The user of the product must test the product's suitability for the intended application and purpose. Sika reserves the right to change the properties of its products. The proprietary rights of third parties must be observed. All orders are accepted subject to our current terms of sale and delivery. Users must always refer to the most recent issue of the local Product Data Sheet for the product concerned, copies of which will be supplied on request.
