

PRODUCT DATA SHEET

Sable Marco® All Purpose Sand

High-quality, screened sand

DESCRIPTION

Sable Marco® All Purpose Sand is a high-quality, washed and screened sand with a consistent grain size, ensuring excellent drainage, compactibility, and workability. Its uniform texture makes it suitable for a wide range of applications, from construction projects to domestic and landscaping uses.

USES

Ideal for general construction, landscaping, paving, drainage, rendering, and backfilling. Suitable for leveling pavers, filling joints, soil conditioning, and decorative displays. Can be mixed with cement for mortar, concrete, and custom sand mixes.

FEATURES

- Superior quality: clean, washed and screened
- Multi-purpose use: masonry, paving, drainage, concrete and mortar mix
- Excellent compaction and drainage properties
- Low dust, easy to handle
- Suitable for indoor and outdoor use

PRODUCT INFORMATION

|--------------------|---|
| Packaging | 20 kg (44 lb) bag 30 kg (66 lb) bag |
| Colour | Natural Beige |
| Shelf life | 3 years |
| Storage conditions | Store in a cool, dry place. Keep bags sealed to prevent moisture exposure. Avoid contact with soil or debris. |
| Yield | 20 kg (44 lb) <ul style="list-style-type: none">▪ Not Compacted: 0.014 m³ (0.49 ft³) or a base of 60 cm × 30 cm × 7.8 cm (23.6" x 11.8" x 3")▪ Compacted: 0.012 m³ (0.42 ft³) or a base of 60 cm × 30 cm × 6.7 cm (23.6" x 11.8" x 2.6") 30 kg (66 lb) <ul style="list-style-type: none">▪ Not Compacted: 0.021 m³ (0.74 ft³) or a base of 60 cm × 30 cm × 11.7 cm (23.6" x 11.8" x 4.6")▪ Compacted: 0.018 m³ (0.64 ft³) or a base of 60 cm × 30 cm × 10 cm (23.6" x 11.8" x 3.9") |

BASIS OF PRODUCT DATA

All technical data stated in this Data Sheet are based on laboratory tests. Actual measured data may vary due to circumstances beyond our control.

ECOLOGY, HEALTH AND SAFETY

User must read the most recent corresponding Safety Data Sheets (SDS) before using any products. The SDS provides information and advice on the safe handling, storage and disposal of chemical products and contains physical, ecological, toxicological and other safety-related data.

APPLICATION INSTRUCTIONS

SUBSTRATE PREPARATION

- **For Landscaping/Backfilling:** Clear the area of large debris, rocks, and organic material. Level the soil as needed to ensure an even surface and proper drainage before applying the sand.
- **For Soil Conditioning:** Ensure the soil is loose and not compacted. If overly clay-heavy or waterlogged, clear any obstructions and lightly loosen the soil to improve sand integration.
- **For Paving/Leveling:** Clean the surface, ensuring it's dry and free from debris, weeds, or loose material. For areas prone to weeds, consider using a weed barrier fabric. Compact the base material for a stable, even surface before applying the sand.

APPLICATION

- **For Landscaping/Backfilling:** Spread the sand evenly over the prepared area, rake to the desired depth, and compact if needed to ensure stability and prevent shifting.
- **For Soil Conditioning:** Mix the sand evenly into the soil to improve drainage and aeration. Rake or till to integrate thoroughly for better soil structure.
- **For Paving/Leveling:** Spread the sand evenly over the prepared base, level using a screed or board, and compact before placing pavers or bricks.
- **For Mixing:** Combine the sand with cement and water in the appropriate ratios to create concrete or mortar. Mix until a smooth, workable consistency is achieved.

LOCAL RESTRICTIONS

Note that as a result of specific local regulations the declared data and recommended uses for this product may vary from country to country. Consult the local Product Data Sheet for exact product data and uses.

LEGAL NOTES

The information, and, in particular, the recommendations relating to the application and end-use of Sika products, are given in good faith based on Sika's current knowledge and experience of the products when properly stored, handled and applied under normal conditions in accordance with Sika's recommendations. In practice, the differences in materials, substrates and actual site conditions are such that no warranty in respect of merchantability or of fitness for a particular purpose, nor any liability arising out of any legal relationship whatsoever, can be inferred either from this information, or from any written recommendations, or from any other advice offered. The user of the product must test the product's suitability for the intended application and purpose. Sika reserves the right to change the properties of its products. The proprietary rights of third parties must be observed. All orders are accepted subject to our current terms of sale and delivery. Users must always refer to the most recent issue of the local Product Data Sheet for the product concerned, copies of which will be supplied on request.
