Roofing and reroofing with Sika® Sarnafil® and Sikalastic® RoofPro® membrane systems.

Sikafloor® and Sikagard®: High performance protective and decorative flooring systems and wall coatings for terminal floors, commercial areas, and transit areas.

Sikaflex® and Sikasil®: Sealants and adhesives for façade joints and structural glazing

Sikafloor® protective flooring solutions for aircraft hangars and other specific applications.

Sikalastic® parking deck membranes and Sikafloor® coatings for pedestrian areas with high traffic.

ADDED VALUE FROM SIKA

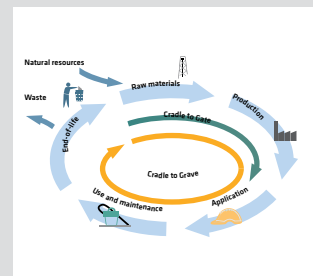

Sika is a recognized leader in the field of products for the construction industry. We supply high performance and value-added products that have earned the confidence of construction professionals worldwide thanks to their quality, reliability and durability. An essential element in our “roof-to-foundation” capabilities is our diverse range of materials which provide long-lasting performance and accommodate a wide variety of service conditions. In new construction or renovation, our materials are employed in most sectors of construction, in virtually any type of building, but also in civil engineering structures.

Worldwide Presence: We are present in 91 countries and operate over 160 industrial sites, relying on over 17,000 employees to do so. You can always count on Sika, no matter the size or complexity of your project.

Total Project Support: From product selection to project completion and delivery, Sika is your partner of choice. We offer dependable support throughout the entire construction process.

Sustainability and Protection of the Environment: As a member of the CaGBC and a trusted supplier of construction materials for LEED projects in Canada, Sika Canada contributes to the green building process.
