

PRODUCT DATA SHEET

Sable Marco® Garden Soil

Natural garden soil

DESCRIPTION

Sable Marco® Garden Soil is a natural, organic-rich all-purpose garden soil specially formulated to improve soil quality and support the healthy growth of vegetables, herbs, flowers and shrubs. Enriched with organic matter, Sable Marco® Garden Soil supports soil structure, retains moisture and enriches the ground with essential organic matter.

USES

Sable Marco® Garden Soil is ideal for garden beds, improving soil quality for vegetables, herbs, flowers and shrubs. Suitable for planting, top dressing and soil amendment in both new and established gardens.

FEATURES

- Rich in organic matter
- Improves soil structure, aeration, and drainage
- Enhances moisture retention for consistent growth
- Supports healthy root development
- Easy-to use, no mixing required

Composition	This product is a blend of black soil, dry peat moss and dolomite.	
	Guaranteed minimal analysis (%):	
	Total Nitrogen (N)	0.57
	Available phosphoric acid (P ₂ O ₅)	0.004
	Soluble Potash (K ₂ O)	0.007
	Calcium (Ca)	0.202
	Magnesium (Mg)	0.021
	Sulfur (S)	0.002
	Organic Matter	35
	Maximum Moisture	50
Packaging	11.25kg (24.8lb) / 25 L (0.88 ft³) bag	
Shelf life	3 years	

BASIS OF PRODUCT DATA

All technical data stated in this Data Sheet are based on laboratory tests. Actual measured data may vary due to circumstances beyond our control.

ECOLOGY, HEALTH AND SAFETY

User must read the most recent corresponding Safety Data Sheets (SDS) before using any products. The SDS provides information and advice on the safe handling, storage and disposal of chemical products and contains physical, ecological, toxicological and other safety-related data.

Read label before using. It is recommended to wear gloves when using this product and wash hands well after use.

APPLICATION INSTRUCTIONS

Vegetable Gardens and Flower Beds: To improve existing soil texture, mix Sable Marco® Garden Soil into the top 100 mm (4 in) of soil. For new garden beds, first remove all weeds, then apply a generous amount and mix thoroughly into the planting area.

Trees, Hedges, and Shrubs: Dig a hole twice as wide as the plant's root ball. Add a 20 mm (¾ in) layer of Sable Marco® Garden Soil to the bottom. For best results, mix 3 parts Sable Marco® Garden Soil with 1 part of compost. Fill around the root ball in 150 mm (6 in) layers, gently firming the soil without damaging the roots. Water thoroughly after planting.

LOCAL RESTRICTIONS

Note that as a result of specific local regulations the declared data and recommended uses for this product may vary from country to country. Consult the local Product Data Sheet for exact product data and uses.

LEGAL NOTES

The information, and, in particular, the recommendations relating to the application and end-use of Sika products, are given in good faith based on Sika's current knowledge and experience of the products when properly stored, handled and applied under normal conditions in accordance with Sika's recommendations. In practice, the differences in materials, substrates and actual site conditions are such that no warranty in respect of merchantability or of fitness for a particular purpose, nor any liability arising out of any legal relationship whatsoever, can be inferred either from this information, or from any written recommendations, or from any other advice offered. The user of the product must test the product's suitability for the intended application and purpose. Sika reserves the right to change the properties of its products. The proprietary rights of third parties must be observed. All orders are accepted subject to our current terms of sale and delivery. Users must always refer to the most recent issue of the local Product Data Sheet for the product concerned, copies of which will be supplied on request.
