

PRODUCT DATA SHEET

Sable Marco® Sand and Salt

High-performance blend of de-icing salt and traction sand for effective ice melting and improved surface grip

DESCRIPTION

Sable Marco® Sand and Salt is a ready-to-use mixture of salt and graded sand that combines effective ice melting with enhanced surface traction. It is designed to melt snow and ice while reducing slip hazards on various outdoor surfaces. Ice melting works effectively to -7 °C (20 °F).

USES

Ideal for enhancing safety on a wide range of outdoor surfaces during winter conditions. It can be applied to driveways, sidewalks, steps, interlocking pavers, loading docks, roadways, parking areas, and beneath vehicle tires to improve traction. Suitable for both residential and commercial settings, it provides an effective solution for reducing slips and falls in high-traffic areas exposed to snow and ice.

FEATURES

- Dual-action: melts ice and improves surface grip
- Functions at temperatures down to -7 °C (20 °F)
- Effective anti-skid performance
- Convenient and easy to apply

PRODUCT INFORMATION

Packaging	10 kg (22 lb) bag 20 kg (44 lb) bag
Colour	Grey-brown
Shelf life	3 years
Storage conditions	Store in a cool, dry place. Keep bags sealed to prevent moisture exposure. Avoid contact with soil or debris.

BASIS OF PRODUCT DATA

All technical data stated in this Data Sheet are based on laboratory tests. Actual measured data may vary due to circumstances beyond our control.

ECOLOGY, HEALTH AND SAFETY

User must read the most recent corresponding Safety Data Sheets (SDS) before using any products. The SDS provides information and advice on the safe handling, storage and disposal of chemical products and contains physical, ecological, toxicological and other safety-related data.

APPLICATION INSTRUCTIONS

Clear loose snow to expose the icy surface. Apply a thin, even layer of Sable Marco® Sand and Salt without over-applying. As the salt melts ice, the sand sticks to the surface to improve traction. Reapply after snowfall or heavy traffic. Remove slush to prevent re-freezing. Do not use on damaged or new concrete cured for less than 12 months.

LOCAL RESTRICTIONS

Note that as a result of specific local regulations the declared data and recommended uses for this product may vary from country to country. Consult the local Product Data Sheet for exact product data and uses.

LEGAL NOTES

The information, and, in particular, the recommendations relating to the application and end-use of Sika products, are given in good faith based on Sika's current knowledge and experience of the products when properly stored, handled and applied under normal conditions in accordance with Sika's recommendations. In practice, the differences in materials, substrates and actual site conditions are such that no warranty in respect of merchantability or of fitness for a particular purpose, nor any liability arising out of any legal relationship whatsoever, can be inferred either from this information, or from any written recommendations, or from any other advice offered. The user of the product must test the product's suitability for the intended application and purpose. Sika reserves the right to change the properties of its products. The proprietary rights of third parties must be observed. All orders are accepted subject to our current terms of sale and delivery. Users must always refer to the most recent issue of the local Product Data Sheet for the product concerned, copies of which will be supplied on request.
