

King® HC-D1

King® HC-D1 is a shotcrete mix for dry process application. King® HC-D1 is a pre-mixed, factory bagged material for optimum quality and formulated to be compatible with existing concrete substrates, provide very high resistance to cracking and achieve durable repairs over time.

ADVANTAGES

- Low cracking potential (according to AASHTO T334)
- Very low shrinkage
- Physical properties similar to conventional concrete, thus offering excellent compatibility with existing concrete

WHERE TO USE

King® HC-D1 can be used for the rehabilitation of a wide range of concrete structures such as: bridges, viaducts, dams, reservoirs, road, rail and subways tunnels, marine structures, parking garage ramps, etc. above grade, and below grade concrete
