

PRODUCT DATA SHEET

Sable Marco® Anti-skid Stone

Sable Marco® Anti-skid Stone is a high-quality aggregate for improved traction on slippery surfaces

DESCRIPTION

Sable Marco® Anti-skid Stone is a high-quality aggregate designed to provide traction on slippery winter surfaces. Suitable for both residential and commercial use, it helps prevent slips on entrances, sidewalks, driveways, parking lots, and other areas affected by ice or snow. Easy to apply, simply spread the stones directly on the ground to reduce slipping hazards.

USES

Ideal for improving grip and reducing slip risks in winter conditions. Commonly applied to entrances, sidewalks, driveways, and parking lots, as well as under car tires for better control on icy terrain.

FEATURES

- Enhances traction on icy and snowy surfaces
- Ideal for use on sidewalks, driveways, parking lots, and under car tires.
- Easy to use and to remove
- Durable and wear-resistant

PRODUCT INFORMATION

Packaging	10 kg (22 lb) bags 20 kg (44 lb) bags
Colour	Grey
Shelf life	3 years
Storage conditions	Store in a cool, dry place. Keep bags sealed to prevent moisture exposure. Avoid contact with soil or debris.
Yield	For effective traction on slippery areas, a rate of 1 kg/m ² is recommended <ul style="list-style-type: none">▪ 10 kg (22 lb) bag covers approx. 10 m² (110 ft²)▪ 20 kg (44 lb) bag covers approx. 20 m² (220 ft²)

BASIS OF PRODUCT DATA

All technical data stated in this Data Sheet are based on laboratory tests. Actual measured data may vary due to circumstances beyond our control.

ECOLOGY, HEALTH AND SAFETY

User must read the most recent corresponding Safety Data Sheets (SDS) before using any products. The SDS provides information and advice on the safe handling, storage and disposal of chemical products and contains physical, ecological, toxicological and other safety-related data.

APPLICATION INSTRUCTIONS

Ensure the surface is clear of snow, ice, or debris before application. A clean surface delivers the best traction (even though it works on frozen ground). Spread the anti-skid stones evenly across icy or snowy areas. For optimal results apply a moderate amount where slipping is a concern, such as driveways, walkways, and under car tires.

LOCAL RESTRICTIONS

Note that as a result of specific local regulations the declared data and recommended uses for this product may vary from country to country. Consult the local Product Data Sheet for exact product data and uses.

LEGAL NOTES

The information, and, in particular, the recommendations relating to the application and end-use of Sika products, are given in good faith based on Sika's current knowledge and experience of the products when properly stored, handled and applied under normal conditions in accordance with Sika's recommendations. In practice, the differences in materials, substrates and actual site conditions are such that no warranty in respect of merchantability or of fitness for a particular purpose, nor any liability arising out of any legal relationship whatsoever, can be inferred either from this information, or from any written recommendations, or from any other advice offered. The user of the product must test the product's suitability for the intended application and purpose. Sika reserves the right to change the properties of its products. The proprietary rights of third parties must be observed. All orders are accepted subject to our current terms of sale and delivery. Users must always refer to the most recent issue of the local Product Data Sheet for the product concerned, copies of which will be supplied on request.
