TECHNOLOGIES AND SOLUTIONS

# CHROMIX-It® 404 SERIES GRANULAR COLOR DISPENSERS

Sika Scofield offers the most extensive line of concrete color dispensers in the industry. Our all-new, small footprint, fast dispensing machines set the industry standard for Simple, Dependable Color™. Deliver the leading brand of concrete color on demand with our CHROMIX-It® 404 Series Granular Color Dispensers. All standard colors of Scofield CHROMIX® Admixtures for Color-Conditioned® Concrete, SCOFIELD® Integral Color SG, Butterfield Uni-Mix® Integral Concrete Colorant, Butterfield Select Grade® Integral Concrete Colorant, and other leading brand color cross-references are stored in the CHROMIX-It® 404 Series memory. CHROMIX-It® 404 Series Granular Color Dispensers run on standard 110V, 15 amp power, and are loaded with standard features to make your job easier, faster, and more trouble-free.

## CHROMIX-It® 404 Color Center for Distributors

- Low maintenance, gravity-driven dispenser
- Simple touchscreen operation
- Easy setup and maintenance, less than 8 hours from delivery to startup

### System Highlights:

- Batch time for most colors less than 30 seconds for two yards
- Transport time to mixer typically less than 30 seconds
- Pulpable bag and label can be tossed directly into truck
- Uses 2,200 lb. supersacks, 1,540 lbs. for yellow
- A label printer for records is included
- Calibrated weighing system
- Refills from front
- All replacement parts stocked by Sika Scofield

## CHROMIX-It® 404 M/ME Color Center for Distributors and Ready Mix Producers

- Low maintenance, gravity-driven dispenser
- Simple touchscreen operation
- Easy setup and maintenance, less than 8 hours from delivery to startup

### System Highlights:

- Batch time for most colors less than 30 seconds
- Accuracy typically within +/- 0.05 lbs.
- CHROMIX-It 404 M uses 1,100 lb supersacks, 770 lbs. for yellow

- Calibrated weighing system
- Refills from front
- All replacement parts stocked by Sika Scofield

# SIKA SCOFIELD SOLUTIONS FOR CONCRETE PRODUCERS, DISTRIBUTORS AND PRECAST MANUFACTURERS

Loading totes of color is easy with the CHROMIX-It® 404 MER Granular Color Dispenser. You simply place the tote onto the supplied cradle (left above), and then place the cradle atop the machine, where it slides in between metal guide rails (right above).

We put safety first by designing the CHROMIX-It 404® Series so that the supersacks can be untied while the cradle sits firmly on top of the machine.

Batching and dispensing color couldn't be any simpler (or faster) with the CHROMIX-It® 404 Series touch-screen control panel. Large buttons make operation a cinch.
