

PRODUCT DATA SHEET

Sable Marco® Filtration Sand

Filtration sand for pool water filtration systems

DESCRIPTION

Sable Marco® Filtration Sand is a high-quality, washed, dried, and screened natural quartz sand designed specifically for use in swimming pool filtration systems. Designed for optimal performance in sand filters, this product ensures clean, clear water by efficiently removing particulates, and debris from pool water.

USES

Sable Marco® Filtration Sand is designed for use in filtration systems in residential and commercial swimming pools, public aquatic facilities, water parks, spas, and hydrotherapy pools.

FEATURES

- High-quality quartz sand
- Washed and dried
- Ready-to-use, for easy application

PRODUCT INFORMATION

Packaging	22.7 kg (50 lb) bag
Shelf life	3 years
Storage conditions	Store in a cool, dry area protected from the elements. Keep bags sealed to prevent moisture exposure.

BASIS OF PRODUCT DATA

All technical data stated in this Data Sheet are based on laboratory tests. Actual measured data may vary due to circumstances beyond our control.

LIMITATIONS OF USE

- Should only be used in sand filtration systems.
- Not intended for use in industrial or chemical filtration applications.
- Avoid contamination with other materials during storage and handling to maintain effectiveness

ECOLOGY, HEALTH AND SAFETY

User must read the most recent corresponding Safety Data Sheets (SDS) before using any products. The SDS provides information and advice on the safe handling, storage and disposal of chemical products and contains physical, ecological, toxicological and other safety-related data.

APPLICATION INSTRUCTIONS

Pour the appropriate quantity of Sable Marco® Filtration Sand into the filter tank, avoiding direct impact on internal components. Fill to the level specified by the filter manufacturer.

Sable Marco® Filtration Sand should be replaced when a noticeable decline in filtration efficiency occurs or when the sand becomes contaminated or compacted. Regular maintenance and inspection help determine the appropriate replacement timing.

LOCAL RESTRICTIONS

Note that as a result of specific local regulations the declared data and recommended uses for this product may vary from country to country. Consult the local Product Data Sheet for exact product data and uses.

LEGAL NOTES

The information, and, in particular, the recommendations relating to the application and end-use of Sika products, are given in good faith based on Sika's current knowledge and experience of the products when properly stored, handled and applied under normal conditions in accordance with Sika's recommendations. In practice, the differences in materials, substrates and actual site conditions are such that no warranty in respect of merchantability or of fitness for a particular purpose, nor any liability arising out of any legal relationship whatsoever, can be inferred either from this information, or from any written recommendations, or from any other advice offered. The user of the product must test the product's suitability for the intended application and purpose. Sika reserves the right to change the properties of its products. The proprietary rights of third parties must be observed. All orders are accepted subject to our current terms of sale and delivery. Users must always refer to the most recent issue of the local Product Data Sheet for the product concerned, copies of which will be supplied on request.
