# Sable Marco® Dolomitic Lime

Natural dolomitic lime to balance soil pH, enhance nutrient absorption, and support healthy plant growth

# **DESCRIPTION**

Sable Marco® Dolomitic Lime is a natural, high-quality soil amendment that improves soil health and balances pH in gardens, lawns, and agricultural fields. Rich in calcium and magnesium, it effectively supports strong plant growth and improves nutrient availability in acidic soils. Its fine granulometry allows for easy application and quick dissolution, ensuring fast, effective results.

### **USES**

Sable Marco® Dolomitic Lime is ideal for use on lawns, vegetable gardens, flowerbeds, and agricultural fields. It can be applied before sowing to prepare the soil or used around established plants to improve growing conditions. By correcting soil acidity, it ensures plants can efficiently absorb the necessary nutrients, leading to healthier growth.

## **FEATURES**

- Corrects soil pH
- Provides essential Nutrients
- Improves soil structure, aeration and nutrient absorption
- Quick dissolution and efficient soil integration
- Easy-to-apply

# **BASIS OF PRODUCT DATA**

All technical data stated in this Data Sheet are based on laboratory tests. Actual measured data may vary due to circumstances beyond our control.

# **ECOLOGY, HEALTH AND SAFETY**

User must read the most recent corresponding Safety Data Sheets (SDS) before using any products. The SDS provides information and advice on the safe handling, storage and disposal of chemical products and contains physical, ecological, toxicological and other safety-related data.

#### APPLICATION INSTRUCTIONS

Apply the Sable Marco® Dolomitic Lime evenly over the soil surface using a spreader or by hand, according to the recommended rate based on soil pH testing. Application rates should follow local agronomic guidelines. Do not overapply. Lightly water the area after application to help the lime dissolve and integrate into the soil. For optimal results, apply during early spring or fall, and regularly monitor soil pH for continued soil health improvement.
