

## PRODUCT DATA SHEET

# Sable Marco<sup>®</sup> Sand

High-quality natural sand

### DESCRIPTION

Sable Marco<sup>®</sup> Sand is a high-quality, screened natural sand designed for a wide range of residential, commercial, and landscaping applications. It provides excellent workability, drainage, and stability, making it ideal for use as a base material, leveling layer, or general-purpose fill.

### USES

Sable Marco<sup>®</sup> Sand is suitable for a wide range of construction and landscaping applications, including leveling surfaces, filling voids, and improving drainage. It can be used as a base for paving stones, slabs, and bricks, or as a component in custom concrete and mortar mixes. Sable Marco<sup>®</sup> Sand is also appropriate for soil improvement and certain filtration applications.

### PRODUCT INFORMATION

<b>Packaging</b>	20 kg (44 lb) bag
<b>Shelf life</b>	3 years
<b>Storage conditions</b>	Store in a cool, dry place. Keep bags sealed to prevent moisture exposure. Avoid contact with soil or debris.

### BASIS OF PRODUCT DATA

All technical data stated in this Data Sheet are based on laboratory tests. Actual measured data may vary due to circumstances beyond our control.

### ECOLOGY, HEALTH AND SAFETY

User must read the most recent corresponding Safety Data Sheets (SDS) before using any products. The SDS provides information and advice on the safe handling, storage and disposal of chemical products and con-

### FEATURES

- High-quality, screened natural sand
- Versatile applications
- Easy to handle and spread

tains physical, ecological, toxicological and other safety-related data.

### APPLICATION INSTRUCTIONS

**Landscaping / Backfilling:** Spread evenly over the prepared area, rake to the desired depth, and compact as needed to ensure stability and prevent shifting.

**Soil Conditioning:** Mix into soil to improve drainage, aeration, and soil structure. Rake or till thoroughly for best results.

**Paving / Leveling:** Spread over a prepared base, level with a screed or board, and compact before placing pavers, bricks, or slabs.

**Mixing with Cement:** Combine with cement and water in appropriate ratios to prepare mortar or concrete.

**Joint Filling / Sanding:** Fill joints between pavers or tiles to lock them in place and prevent movement. Sweep evenly and compact if necessary.

**Drainage & Filtration:** Use as a base layer in drainage systems, or filtration applications to help remove sediments and impurities from water.

## LOCAL RESTRICTIONS

Note that as a result of specific local regulations the declared data and recommended uses for this product may vary from country to country. Consult the local Product Data Sheet for exact product data and uses.

## LEGAL NOTES

The information, and, in particular, the recommendations relating to the application and end-use of Sika products, are given in good faith based on Sika's current knowledge and experience of the products when properly stored, handled and applied under normal conditions in accordance with Sika's recommendations. In practice, the differences in materials, substrates and actual site conditions are such that no warranty in respect of merchantability or of fitness for a particular purpose, nor any liability arising out of any legal relationship whatsoever, can be inferred either from this information, or from any written recommendations, or from any other advice offered. The user of the product must test the product's suitability for the intended application and purpose. Sika reserves the right to change the properties of its products. The proprietary rights of third parties must be observed. All orders are accepted subject to our current terms of sale and delivery. Users must always refer to the most recent issue of the local Product Data Sheet for the product concerned, copies of which will be supplied on request.
