Sikafloor® TERRAZZO

TECHNOLOGY MEETS A TRUE CLASSIC Sikafloor® Terrazzo combines the true benefits of one of the oldest forms of decorative flooring with proven resin technology. Creating something that is both beautiful and very long lasting.

Unlimited, custom-made shapes, patterns and designs can be achieved through the combination of a vast spectrum of resin colours and a wide variety of new or recycled, coloured aggregates, including marble and granite, porcelain, mother-of-pearl, glass and even plastic.

The Sikafloor® Terrazzo system includes: solvent-free and odourless epoxy binders for horizontal and vertical applications; clear, water-based and flexible glaze coats; and the option for a anti-fracture underlayment.

This combination results in a dense, high-strength and chemical resistant floor topping, suitable for both new and existing concrete.

Its installation is very fast in comparison to traditional cement terrazzo, helping to reduce downtime during new construction or renovation. In addition to being applied on-site, it can also be precast, enhancing quality and accelerating production.

Sikafloor® Terrazzo brings together brilliance, purity and the lowest life cycle cost of any hard surface.

LEADERSHIP IN ENERGY AND ENVIRONMENTAL DESIGN (LEED® CANADA)

As a finished flooring system, Sikafloor® Terrazzo can contribute towards the obtention of points for LEED® certified projects.

MATERIAL AND RESOURCES (MR)

- Building Products Disclosure & Optimization
- Environmental Product Declaration: Type III EPD
- Product Specific - "Cradle-to-Grave")

IMAGINATION WITHOUT BOUNDARIES

UNLIMITED COLOURS & AESTHETICS

- Binders are available in a wide range of colours for creating unique combinations to suit any environment
- Aggregates, originating from new or recycled sources and potentially including many different forms of material, from granite to mirrored glass, can also be used to create in virtually unlimited colours and appearances

ENDLESS DESIGN POSSIBILITIES

- A limitless choice of shapes and forms allows for unique and distinctive patterns
- A selection of divider strips in a variety of materials for aesthetic transitions between mixes and designs. The strips include:
 - Zinc
 - Brass
 - Aluminium
 - Coloured Plastic

SUSTAINABLE FLOORING

LONG-LASTING DURABILITY

Superior and proven durability, even in high traffic zones
 Exceptional wear and abrasion resistance
 Easy to clean and maintain

COST-EFFECTIVE ECONOMICS

- Low life-cycle cost compared to other hard floor finishes

EASY INSTALLATION

- Fast, easy and safe installation
- Solvent-free, with no chemical odour
- Low VOC content
- Applied as a thin layer, which facilitates joining with adjacent floor finishes

DEDICATED PROFESSIONAL TEAM TO HELP YOU

Sika's tailor-made solutions will provide the properties necessary to accommodate virtually all service conditions and satisfy every budget. They are supported by a dedicated team of technical, sales and service professionals, who are present from design through to completion, to help you create a durable, cost effective and attractive finish.

APPLICATIONS INCLUDE:

- Healthcare facilities
- Supermarkets
- Pharmaceutical production facilities
- Laboratories
- Airports
- Shopping malls
- Boutiques
- Office buildings
- Educational institutions
- Public and commercial buildings
- Lobbies of prestigious buildings
- Restaurants
- Stairways and elevators
- And much more...
