

PRODUCT DATA SHEET

Sable Marco® Hen Manure

Organic fertilizer made from laying hen manure

DESCRIPTION

Sable Marco® Hen Manure is a multipurpose natural organic fertilizer derived exclusively from laying hen manure, designed to enhance soil fertility, support healthy plant growth and crop performance. Rich in essential nutrients and organic matter, it improves soil structure, and stimulates microbial activity. Sable Marco® Hen Manure is produced without added inputs and processed through controlled, sustainable drying to ensure stability, safety, and ease of application.

USES

Sable Marco® Hen Manure is suitable for use in home gardens, flower beds, ornamental trees, and lawns. It can be applied to vegetable gardens, shrubs, and fruit trees to support healthy growth. This natural product is also suitable for organic crops, making it ideal for both new planting and maintenance applications. It can be incorporated into soil before planting or used as a top dressing during the growing season.

FEATURES

- All natural, derived exclusively from laying hen manure
- Suitable for organic crops
- Produced without added chemical inputs
- Supports a variety of plant types including vegetables, flowers, trees, and lawns
- Contains essential nutrients
- Easy to handle and apply

PRODUCT INFORMATION

Composition

Guaranteed minimal analysis (%):

Total Nitrogen (N)	4.22
Ammoniacal Nitrogen (N-NH ₄)	0.117
Total Phosphoric Acid (P ₂ O ₅)	3.19
Available Phosphoric Acid (P ₂ O ₅)	2.56
Soluble Potash (K ₂ O)	2.76
Calcium (Ca)	6.12
Magnesium (Mg)	0.45
Organic Matter	62.8
Dry Matter	86.7

Packaging

10 kg (22 lb) bag

Shelf life

3 years

BASIS OF PRODUCT DATA

All technical data stated in this Data Sheet are based on laboratory tests. Actual measured data may vary due to circumstances beyond our control.

ECOLOGY, HEALTH AND SAFETY

User must read the most recent corresponding Safety Data Sheets (SDS) before using any products. The SDS provides information and advice on the safe handling, storage and disposal of chemical products and contains physical, ecological, toxicological and other safety-related data.

Caution: Keep out of reach of children and pets. This product may be harmful if misused. Do not ingest.

First aid: If on skin: wash with plenty of water. Take off contaminated clothing and wash it before reuse. If in eyes: rinse continuously with water for several minutes. Remove contact lenses, if present and easy to do. Seek medical attention if irritation occurs or persists. Read label before using. Keep out of reach of children and animals.

APPLICATION INSTRUCTIONS

Garden Application:

10 kg (22 lb) of Sable Marco® Hen Manure covers approximately 100 m² (1076 ft²).

- For soil preparation before sowing, incorporate 80 to 120 g per m² (2.6 to 3.9 oz per 10.8 ft²) evenly into the soil using a spade or rotary cultivator.
- For established crops, apply 40 to 50 g per m² (1.3 to 1.6 oz per 10.8 ft²), with adjustments based on specific crop requirements.

Flowers Application:

10 kg (22 lb) of Sable Marco® Hen Manure covers approximately 250 m² (2,691 ft²).

- For established flowers and plants in spring, spread 40 g per m² (1.3 oz per 10.8 ft²) evenly on the soil surface around the plants.
- For new plants, incorporate 80 g per m² (2.6 oz per 10.8 ft²) into the soil using a spade or rotary cultivator before planting.
- For bulbs, mix 30 g (1 oz) into the soil beneath each bulb, or spread on the surface at a rate of 120 g per m² (4.2 oz per 10.8 ft²).

Trees, Shrubs, and Hedges Application:

- For trees and shrubs, incorporate the Sable Marco® Hen Manure into the planting hole at a rate of 40 g per m² (1.3 oz per 10.8 ft²) for evergreen and coniferous trees, or 80 g per m² (2.6 oz per 10.8 ft²) for deciduous trees and shrubs.
- For occasional maintenance, apply 40 g per m² (1.3 oz per 10.8 ft²) evenly around the base of the tree or shrub.
- For hedges, 10 kg (22 lb) covers approximately 50 linear meters (164 ft). Apply Sable Marco® Hen Manure evenly at the base of the hedge.

Lawn Application:

10 kg (22 lb) of Sable Marco® Hen Manure covers approximately 100 m² (1,076 ft²).

- For optimal maintenance, spread evenly in early spring and repeat every 4 weeks throughout the growing season.

LOCAL RESTRICTIONS

Note that as a result of specific local regulations the declared data and recommended uses for this product may vary from country to country. Consult the local Product Data Sheet for exact product data and uses.

LEGAL NOTES

The information, and, in particular, the recommendations relating to the application and end-use of Sika products, are given in good faith based on Sika's current knowledge and experience of the products when properly stored, handled and applied under normal conditions in accordance with Sika's recommendations. In practice, the differences in materials, substrates and actual site conditions are such that no warranty in respect of merchantability or of fitness for a particular purpose, nor any liability arising out of any legal relationship whatsoever, can be inferred either from this information, or from any written recommendations, or from any other advice offered. The user of the product must test the product's suitability for the intended application and purpose. Sika reserves the right to change the properties of its products. The proprietary rights of third parties must be observed. All orders are accepted subject to our current terms of sale and delivery. Users must always refer to the most recent issue of the local Product Data Sheet for the product concerned, copies of which will be supplied on request.
