

PRODUCT DATA SHEET

Sable Marco® Sandblast Sand

High-quality blasting sand

DESCRIPTION

Sable Marco® Sandblast Sand is a high-quality, angular sand designed for abrasive blasting applications. Its consistent grain size and hardness provide efficient surface preparation, and cleaning of metal, concrete, and other durable substrates.

USES

Sable Marco® Sandblast Sand is ideal for abrasive blasting applications on durable surfaces such as metal, concrete, stone, and masonry. It is used to clean and prepare surfaces by removing rust, paint, scale, or other coatings. Suitable for both industrial and commercial projects requiring surface preparation prior to painting, coating, or sealing.

FEATURES

- High-quality graded sand
- Hard, angular particles for effective abrasion
- Improves surface adhesion for coatings and sealants
- Suitable for industrial and commercial blasting equipment

PRODUCT INFORMATION

Packaging	25 kg (55 lb) bag
Shelf life	3 years
Storage conditions	Store in a cool, dry place. Keep bags sealed to prevent moisture exposure. Avoid contact with soil or debris.

BASIS OF PRODUCT DATA

All technical data stated in this Data Sheet are based on laboratory tests. Actual measured data may vary due to circumstances beyond our control.

LOCAL RESTRICTIONS

Note that as a result of specific local regulations the declared data and recommended uses for this product may vary from country to country. Consult the local Product Data Sheet for exact product data and uses.

ECOLOGY, HEALTH AND SAFETY

User must read the most recent corresponding Safety Data Sheets (SDS) before using any products. The SDS provides information and advice on the safe handling, storage and disposal of chemical products and contains physical, ecological, toxicological and other safety-related data.

LEGAL NOTES

The information, and, in particular, the recommendations relating to the application and end-use of Sika products, are given in good faith based on Sika's current knowledge and experience of the products when properly stored, handled and applied under normal conditions in accordance with Sika's recommendations. In practice, the differences in materials, substrates and actual site conditions are such that no warranty in respect of merchantability or of fitness for a particular purpose, nor any liability arising out of any legal relationship whatsoever, can be inferred either from this information, or from any written recommendations, or from any other advice offered. The user of the product must test the product's suitability for the intended application and purpose. Sika reserves the right to change the properties of its products. The proprietary rights of third parties must be observed. All orders are accepted subject to our current terms of sale and delivery. Users must always refer to the most recent issue of the local Product Data Sheet for the product concerned, copies of which will be supplied on request.
