

Sarnacorners - Inside

Construction

Description	<p>Sarnacorners - Inside are a 60 mil (1.5 mm) thick prefabricated corner used as a time-saving and attractive part of a wall flashing detail.</p> <p>Sarnacorners - Inside come in EnergySmart® white.</p>
Composition	<ul style="list-style-type: none">■ Sarnacorners - Inside are injection molded with the same time-proven formulation used in our Sarnafil membranes.
Features	<ul style="list-style-type: none">■ Sarnacorners - Inside simplify the flashing procedures for inside corner details reducing the risk of leakage.■ They are available in one size which accomodates most inside corners.■ Sarnacorners - Inside are heat-welded in place, becoming an integral part of the flashing assembly.
Packaging/Storage	<ul style="list-style-type: none">■ Sarnacorners - Inside are packaged in boxes of 10 pieces.■ Each box weighs approximately 13.6 kg (30 lb).
Installation	<p>After the wall flashings are installed, Sarnacorners - Inside are heat welded in place with a hand-held hot-air welder and roller. No caulking or sealants are necessary.</p>
Availability	<p>Sarnacorners - Inside are available directly from Sika Canada Authorized Applicators when used within a Sarnafil® Roof System. Contact Sika Canada or visit www.sika.ca for further information.</p>
Warranty	<p>As a Sika Canada-supplied accessory, Sarnacorners - Inside are included in Sika Canada's Standard or System Warranty.</p>
Maintenance	<p>Sarnacorners - Inside require no maintenance.</p> <p>Periodic maintenance of a Sarnafil® system ensures extended performance and reduces life cycle costs. Consistent with industry practices, Sika Canada recommends inspecting the roof system for damage, plugged drains, weathered sealants, etc. at least twice a year and after each storm.</p>
Technical Support	<p>Sika Canada provides technical support. Technical staff is available to advise applicators as to the proper installation method.</p>

Construction

The information, and in particular, the recommendations relating to the application and end-use of Sika products, are given in good faith based on Sika's current knowledge and experience of the products when properly stored, handled and applied under normal conditions, within their shelf life. In practice, the differences in materials, substrates and actual site conditions are such that no warranty in respect of merchantability or of fitness for a particular purpose, nor any liability arising out of any legal relationship whatsoever, can be inferred either from this information, or from any recommendations, or from any other advice offered. The proprietary rights of third parties must be observed. All orders are accepted subject to our current terms of sale and delivery. Users should always refer to the most recent issue of the Product Data Sheet for the product concerned, copies of which will be supplied on request or can be accessed in the Internet under www.sika.ca.
