

SikaProof® Adhesive 22

SikaProof® Adhesive-22 is a single-component, thixotropic cement-based adhesive designed to bond the SikaProof® A+ membrane to both young and fully cured concrete surfaces.

BENEFITS

- High adhesion to concrete
- Resists water penetration and mechanical stress
- Solvent-free, no primer required
- Can be used as a leveling layer

WHERE TO USE

- Bonding of SikaProof® A+ waterproofing membrane to reinforced concrete
- For horizontal and vertical applications
- Commonly employed in basements and other underground structures

SikaProof® Adhesive-22 is the ideal solution for construction professionals seeking a durable and convenient waterproofing solution on different types of concrete surfaces.
